PROFESSIONAL SUMMARY

Full-stack software engineer with 2+ years building production systems that handle real money and real users. Built applications across fintech, e-commerce, healthcare and real estate, including 4 production M-Pesa Daraja integrations and a multi-tenant SaaS banking platform used by 9+ organizations. Built an AI chatbot using RAG, vector search and LLMs. Works with AWS (basic), Vercel and Docker.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, PHP, SQL, HTML/CSS
Backend: Django, Django REST Framework, Laravel, Node.js, Express, Flask
Frontend: Vue 3, React, Next.js, HTMX, Tailwind CSS
Databases: PostgreSQL, MySQL, Microsoft SQL Server, MongoDB, Redis
APIs & Integrations: M-Pesa Daraja (STK Push, C2B, B2C), Africa's Talking (SMS, USSD), WhatsApp Cloud API, REST, Meta Graph API (WhatsApp Cloud), XML-RPC
Cloud & DevOps: AWS (basic), Docker, Docker Compose, Ubuntu Server, Linux, Nginx, SSL/TLS (Let's Encrypt/Certbot), CI/CD (GitHub Actions, Bitbucket Pipelines), Vercel, Git, RabbitMQ
Monitoring & Automation: Grafana (daily production monitoring), Playwright (E2E testing & browser automation), n8n workflow automation
AI & Data: Retrieval-Augmented Generation (RAG), Vector Search (Supabase pgvector), LLM Integration, Prompt Engineering
Architecture: Microservices, Multi-tenant SaaS, System Design, RESTful API Design

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER, Pendo Media Ltd, Nairobi *(Oct 2025 – Present)*
SnB Core Banking + PendoAdmin: Multi-tenant SACCO banking platform serving 9+ cooperative societies across Kenya with on-premise and SaaS deployments.

- Core developer on SnB, a multi-tenant Laravel + Vue 3 SACCO core banking platform serving 9+ organizations, deployed on-premise and as SaaS
- Built WhatsApp Business messaging end to end: PendoAdmin's WhatsApp microservice (Node.js/Express, Knex, RabbitMQ, Redis) with Meta Embedded Signup, token rotation, template sync and wallet billing, plus the SnB Laravel + Vue 3 integration (queued outbox, delivery reconciliation, WhatsApp OTP with SMS fallback)
- Integrated M-Pesa Daraja API (STK Push, C2B, B2C) with retry logic, idempotency, and automated transaction reconciliation across 4 production applications
- Built core SnB modules: chama/group savings, contribution cycles and disbursements with maker-checker approval, invite-based onboarding, loans with guarantors, Standing Orders V2 and automated ledger posting
- Worked on a 2-month on-site deployment in Mogadishu, Somalia, coordinating with international financial stakeholders and navigating cross-border regulatory requirements
- Deploy and maintain multi-environment infrastructure with Docker and Bitbucket Pipelines CI/CD, and monitor production service health daily in Grafana

INDEPENDENT SOFTWARE CONSULTANT *(Oct 2024 – Present, concurrent with Pendo)*
Mustard Imports: Complete wholesale group-buying e-commerce platform
- Built a Django 5 + Vue 3 platform with 1,300+ products across 12 categories, sourcing from China, Turkey, and Dubai
- Integrated M-Pesa Daraja API for payments; implemented automated inventory scraping from supplier catalogues
- Docker + Nginx setup for a 2GB-RAM VPS

Sereniminds Wellness Clinic: Clinic management system prototype
- Designed 42-interactive-view system: appointment scheduling, EHR/clinical documentation, billing with KRA eTIMS fiscalization, M-Pesa payments, and full client portal
- Built AI-powered mental health chatbot using RAG, Supabase vector store, and Google Calendar/Zoom/Gmail API integration, automating 15-minute virtual consultation bookings

Kolzimodo Insurance: Insurance policy management system at kolzimodoinsurance.vercel.app
- Built and deployed full insurance platform with Next.js, integrated blog, and Vercel hosting, serving live clients at kolzimodoinsurance.vercel.app

ODOO ERP DEVELOPER, AG Properties *(2025)*

- Customized Odoo 19.3 SaaS real estate portal via Python XML-RPC API, QWeb template overrides, and CSS/JS injection, turning standard e-commerce into a full-featured real estate platform
- Executed 8+ iterative deployments using Python automation scripts within SaaS platform constraints
- Built client-side filtering, category navigation, and enquiry workflows, turning a standard product listing into a browsable real estate catalog
- **Live:** agproperties.odoo.com

ICT INSTRUCTOR, Waithaka Vocational Training Centre *(Sep – Nov 2025)*

- Trained 30+ students in Python, JavaScript, and n8n workflow automation (85% course completion rate)
- Maintained 98% uptime across 30+ computer lab workstations through hands-on network configuration and hardware troubleshooting

JUNIOR SOFTWARE DEVELOPER (INTERN), Amtech Technologies Ltd *(Sep – Dec 2023)*

- Developed INVGMT construction inventory management system using Python, Django, and Microsoft SQL Server
- Built centralized expenditure analytics dashboard with dynamic project completion tracking and ETL processes using Microsoft Power Query and SQL Server

PROJECTS

- **Mustard Imports** | Django + Vue 3, M-Pesa, PostgreSQL (complete build)
- **AG Properties** | Odoo 19.3 SaaS, Python XML-RPC | agproperties.odoo.com
- **PendoAdmin WhatsApp service** | Node.js/Express, Knex, RabbitMQ, Redis | pendoadmin.pendo.co.ke
- **Kolzimodo Insurance** | Next.js | kolzimodoinsurance.vercel.app

EDUCATION

BSc Computer Science, Technical University of Mombasa *(2020 – 2024)*
KCSE, Olkejuado High School *(2019)*

LANGUAGES

English (fluent, C1) | Swahili (native)
